

ARMOR-SLEEVE

Features:

- Protects against abrasion and deterioration
- Provides limited burst, containment, and pinhole protection
- Works great for bundling hoses, cables, etc.
- Fits any application
- Meets ISO 6945 abrasion standards
- Available in multiple widths up to 5.76" nominal I.D.
- Extreme durability and flexibility
- Available in light and heavyweight version

Compatible with:

Gasoline, oil, mineral and vegetable oil, alcohols, diluted bases, diluted acids, benzene, acetone, ether, carbon tetrachloride, chlorine based solvent.

Properties and Specifications:

Abrasion	Meets or exceeds ISO 6945 abrasion standard
Flammability	MSHA approved for mine usage
Color.....	Black (standard)
Melting Point	419°F - 430°F
Material.....	Nylon 6
Dimensional Stability	Resistant to sunlight, atmospheric agents & aging
Toxicity	Non-toxic

A = Inside width

B = Round I.D. (A x 2 / 3.14)

.090" +/- .020"
Double Wall Thickness
